Delaware County Department of Human Services: Office of Drug and Alcohol

Recovery House Providers

A Recovery House is a supportive, shared living environment founded on peer support and connection to community services that promote a person's active participation in their own recovery and treatment.

Recovery houses are best suited for individuals leaving inpatient treatment and stepping down to outpatient levels of care. Providing individuals with a safe and stable place to live can potentially be the foundation for a life time in recovery.

This is for individual adults only who meet the eligibility requirements set forth by the Delaware County Single County Authority (SCA).

What the SCA Provides? Rent payments for individuals who qualify and reside in DDAP Licensed Recovery Houses contracted with SCA. Individuals may be given funding in 30 days increments, and up to 60 days of funding, for the initial authorization period. Additional authorized days may be approved on a case-by-case basis. Exceptions may be made for PA Department of Drug & Alcohol Programs identified priority populations.
