

DELAWARE COUNTY LEAD HAZARD REDUCTION PROGRAM

LEAD Safe Housing Registry

The following units were determined to be lead-safe following their participation in the Delaware County Lead Hazard Reduction Program funded by the U.S. Department of Housing and Urban Development's Office of Healthy Homes and Lead Hazard Control. The Lead Safe Registry is made up of homes that have had substantial lead remediation and were deemed lead hazard free at the time of clearance testing as indicated in the listing.

It is important to keep in mind that while these units have undergone substantial lead remediation, these units were deemed "Lead-Safe" at the time of their lead evaluation. "Lead Safe" means that a dwelling, dwelling unit or premises either contains no lead, or contains lead in such condition and location that does not result in a lead source health hazard. It does not mean entirely Lead Free.

Lead Safe Housing
