

DELAWARE COUNTY SUSTAINABILITY COMMISSION

The Delaware County Sustainability Commission (the “Commission”) was created by a resolution (the “Resolution”) of the County Council (“Council”) of the County of Delaware, Commonwealth of Pennsylvania (the “County”) adopted on February 19, 2020, with the stated purpose of providing both review and recommendations to Council and pertinent County Departments regarding the preservation and protection of the natural and cultural environment of the County which, inter alia, include:

- Recommending best environmental and energy practices in the areas of buildings, facilities and operations; fuels, vehicles, and transportation food; responsible purchasing; housing; energy sources; air quality; stormwater management; natural and cultural resource protection, wildlife preservation; and climate change.
- Identifying environmental and energy policies the County has adopted and recommending ways to promote and educate about the County’s environmental and energy initiatives.
- Identifying and recommending voluntary actions, projects, and programs for municipalities, businesses, non-profits, and other partners to implement County environmental and energy policies.
- Creating, reviewing and providing ongoing input into a Delaware County Sustainability Action Plan.
- Recommending Triple Bottom Line related actions, projects, and programs to Council for implementation.

Council has retained the power to amend the purposes and powers of the Commission and to abolish the Commission at any time in its sole discretion.
