

COVID-19 TESTING SITES IN DELAWARE COUNTY

This document lists active COVID-19 testing sites in Delaware County, run by healthcare organizations including pharmacies, hospitals, urgent care clinics, as well as testing sites run or sponsored by the County of Delaware.

Please note that this is accurate at the time of publication; however, changes to testing sites occur frequently and it is possible that this document may *not* reflect current information for every site.

Many sites require an appointment or pre-registration, may require a referral from your doctor, or may require out-of-pocket expenses, so it is strongly recommended that you visit the organization’s website and/or call to verify a testing site’s information before traveling to any specific test site.
