

**Ongoing Support for Children Born Addicted to Opioids
Request for Grant Proposals
Questions and Responses**

Are current opioid settlement fund grantees eligible to apply for this round of funding? **Yes**

The RFP for Ongoing Services for Children Born Addicted to Opioids states "The program will support the children and their caregiver(s) through adolescence." If a program serves only a subset of this age range, i.e. children from birth through age 3, will the proposal still be considered? Delaware County will review and consider all submitted proposals in response. **Delaware County will review and consider all submitted proposals in response.**

Can you please clarify the intended population for the services for Children with Prenatal substance exposure? **The intended population is for services through adolescences.**

Is the RFP limited to a specific age range and/or can respondents propose serving specific subsets of the population? **The Request for Grant Proposal is issued for Ongoing Services for Children Born Addicted to Opioids seeking a program to support the children and their caregiver(s) through adolescence.**

Is the RFP limited to a specific age range and/or can respondents propose serving specific subsets of the population? **The Request for Grant Proposal is issued for Ongoing Services for Children Born Addicted to Opioids seeking a program to support the children and their caregiver(s) through adolescence.**

Is there an award cap? How many providers are anticipated to be awarded? **Delaware County will review and consider all submitted proposals in response and may at their discretion choose one or more providers based on proposals received. An award cap has not been determined, please submit a reasonable budget to fully support your agency's proposals.**

Is there a specific cohort of children that this round pertains to, or is the number of children/families fluid throughout the duration of the contract period? **Specific cohort is children born addicted and their caregivers, and it would be fluent through the life of the Grant.**

Given the RFP indicates the program will support/follow the children through Adolescence, is the contract period longer than 1 year? Understanding the duration will help define the care plan for multi-year support (e.g. childhood through adolescence). **The contract period would be through May 2026; however, awardees may be given an opportunity to request to apply for additional funding based on their achievements.**
