Program: The Shevlin Family Foundation – Nurturing Sober Communities

Total Amount: \$23,000

Proposal to enhance provider's ability to nurture sober communities through community events, such as Recovery Fest, Overdose Awareness and Memorial Walk, and Phillies Game for persons in recovery; and facilitation of Recovery Home Coalition Meetings.

Program: The Shevlin Family Foundation – Stabilization and Enhancement of the Journey Program

Total Amount: \$60,430

Proposal to increase capacity to provide ongoing recovery support to persons in the Journey Program by adding Certified Recovery Specialists on a part-time basis to establish and maintain regular contact with the individuals.

Program: Community Action Agency – Assessment and Therapy for Homeless and Near Homeless Households

Total Amount: \$150,132

Provide screening and assessment for persons experiencing homelessness or near homelessness, and therapy for those who are identified as having issues related to opioid or other substance use.

Program: American Treatment Network – Opioid Crisis Response Center

Total Amount: 1,500,000

Opioid Crisis Response Center, located in Upland, to provide three primary services: Opioid Treatment Program with a full continuum of treatment services; in-person 24-hour assessment center; and 23-hour reclines for individuals awaiting placement in treatment services.

Program: Savage Sisters Recovery, Inc. – Community Recovery: Housing, Education, Harm Reduction, and Outreach (Submitted by Public Defender’s Office)

Total Amount: \$537,000

Expand evidence-based services, including recovery housing, education, harm reduction, and outreach, currently operational in Philadelphia to Delaware County.

Total Service Providers: \$3,993,451

Higher Education

Program: Saint Joesph’s University – CEU Program Targeting Pharmacy-Related Providers

Total Amount: \$180,900

Online, asynchronous continuing educational program for pharmacists addressing critical areas such as reducing the stigma surrounding Opioid Use Disorder, implementing screening techniques, intervening when necessary, and appropriately referring patients to local resources.

Program: Saint Joesph’s University – Opioid Addiction Education and Prevention Series for Medical Residents and Medical Students

Total Amount: \$157,500

Prevention-based educational series, addressing themes of recognizing addiction, safe prescribing practices, and alternative forms of chronic pain management, for medical residents and medical students.

Program: Saint Joesph’s University – Working Group to Develop Curriculum for K-12 Students Focused on Opioid Prevention and Education

Total Amount: \$62,500

Convene a workgroup to evaluate and enhance the Institute for Clinical Bioethics’ comprehensive education and prevention curriculum to be deployed at County Schools.

Program: Widener University – Opioid Service Delivery Expansion Program

Total Amount: \$146,419

Enhance the clinical experience of predoctoral interns to increase training experiences related to developing core competencies required for working with the vulnerable and underserved populations impacted by the opioid crisis, design and implement inter-professional learning, and increase the standard of integrated clinical practice.

Program: Pennsylvania Institute of Technology – Education and Training

Total Amount: \$66,500

Implement opioid education initiatives that would strengthen current healthcare-related curricula intended toward future practitioners and would provide educational opportunities and resources for the community.

Total Higher education: \$613,819

County Departments

Program: Health Department – Delco Revive

Total Amount: \$137,286

Expansion of Delco Revive to provide leave-behind kits, CPR Certification, MRC training support, and marketing campaign.

Program: Department of Human Services-Drug and Alcohol – Targeted Case Management for Pregnant Women and Women with Children

Total Amount: \$80,000

Amend current contractual agreements with service providers to include a specialized case management track geared towards pregnant women and women with children.

Program: Department of Human Services-Drug and Alcohol – Transportation Services

Total Amount: \$50,000

Add transportation to current contractual agreements with service providers to reduce the identified barrier to accessing treatment.

Program: Medical Examiner’s Office – Radox Evidence MultiSTAT Analyzer

Total Amount: \$60,030

Purchase of the Radox Evidence MultiSTAT Analyzer which is a diagnostic testing system designed to rapidly and simultaneously test multiple analytes in various samples.

Program: Health Department – Deterra

Total Amount: \$1,000,000

Proposal to contract with Deterra to distribute drug disposal pouches, which allow for safe medication disposal at home, and will include a customized postcard with a greeting from the County and health education information about medication safety and opioid harm reduction.

Total County Departments: \$1,327,316

Total: \$6,451,642
