*****BID QUESTION, CLARIFICATIONS AND ANSWERS*****

Question #1: What are the licensing requirements for this project?

Answer: There are no licensing requirements to be submitted at this time for the technical requirements of the project. There are requirements for qualifications and certifications being requested in item 6 and its subsections on page A-3 and page A-4. Respondents can also include additional attachments that demonstrate they meet the criteria. Please reference A-Invitation for Bids document.

Question #2: As we are working on the qualification process, I noticed the AIA 305 document is the 1986 form. Is that correct or will an updated version be provided? Would a separate document then be provided to support other areas of qualifications as outlined in the Invitation to Bid document?

Answer: Please submit the latest version of the AIA 305 document as part of your submission.
