**Request for Proposal
Competency Restoration and Remediation Program**

**Delaware County
Department of Human Services**

INTRODUCTION

Delaware County Juvenile Court and Probation Services seeks a program that would aim to restore or remedy competency to those individual juveniles who the Court has deemed incompetent to stand trial due to a lack of knowledge or understanding of the juvenile court process.

OBJECTIVE

This program would strive to assist identified juveniles in attaining competency so that capable individuals could move their cases through the court system. This would allow the court to achieve community protection, accountability, and competency development while also lessening the burden on the court, the district attorney's office, the juvenile probation department, and the public defender's office by eliminating court cases that would otherwise occupy the court's time.

Dusky v. United States, 362 U.S. 402 (1960) is the controlling law in Pennsylvania regarding competency. It set the precedent that a defendant must possess "sufficient present ability to consult with his lawyer with a reasonable degree of rational understanding" and a "rational as well as factual understanding of the proceedings against him."

The desired curriculum would include modules that educate participants to understand better and prepare for interactions with the legal system. Topics include, but are not limited to, the nature of the charges, the hearing process, participants/respective roles, expectations regarding interactions and behavior in court, and possible outcomes. Comprehension checks should occur throughout the program to measure progress.

Independent Competency Evaluations would occur before and after program participation.
